

# THE NEW DIGITOOLS

IF AT FIRST YOU SUCCEED.... SUCCEED AGAIN AND AGAIN AND AGAIN

NOW COMPATIBLE WITH MEDIA MATRIX® nWARE™

Announcing the arrival of the new Architectural Acoustics® Digitool multi-processor from Peavey® Commercial Audio. Everything you love about the original Digitool, re-engineered from the ground up with stronger DNA. Digitools now share a technology platform with the MediaMatrix NION® processor, providing ample headroom for running Peavey's world-class processing algorithms on a screaming new DSP engine. Raising the bar even further, the new Digitools are discoverable and controllable via nWare\*, the proprietary programming and control application of the renowned Peavey MediaMatrix DSP system. Equipped with power and pedigree, the new Digitools represent the new breed of state-of-the-art digital signal processing.

## digitool® MX16

- 8 inputs/8 outputs, Euro connectors
- Enhanced navigation
- Front panel mute switches
- Front panel input/output metering
- Front panel USB port
- Rear panel Ethernet port
- 8 control voltage ports
- nWare based front panel GUI
- Discoverable & controllable via nWare
- 1 AES input, assignable to any outputs

## digitool® MX32

- 16 inputs/16 outputs, Euro connectors
- Enhanced navigation
- Front panel mute switches
- Front panel input/output metering
- Front panel USB port
- Rear panel Ethernet port
- 8 control voltage ports
- nWare based front panel GUI
- Discoverable & controllable via nWare
- 2 AES inputs, assignable to any outputs

## digitool® LIVE

- Designed for live sound applications
- 8 inputs/8 outputs, balanced XLR
- Enhanced navigation
- Front panel mute switches
- Front panel input/output metering
- Front panel USB port
- Rear panel Ethernet port
- nWare based front panel GUI
- Discoverable & controllable via nWare
- 1 AES input, assignable to any outputs

\*nWare is the proprietary programming and control application for Peavey's MediaMatrix DSP system (nWare v1.6.0 available for download from [mm.peavey.com](http://mm.peavey.com)).
